

Japan-US Aviation Environmental Workshop

Greener Flights,
Quieter and Cleaner
Aviation in Japan

Time: 10:00–17:30

Date: 29 November 2017

Venue: Fukutake Hall
University of Tokyo

This workshop aims to share knowledge among all participants of the advances in alternative aviation fuels and advanced flight procedures. Experts from the United States and Japan will share their knowledge of technologies providing status and pointing out future opportunities.

The panel session within the workshop will be an excellent opportunity for audience participation.
